GM ON the TOP

We take immense pride in celebrating the incredible achievement of our General Manager, Mr Dhananjoy Mishra, who successfully climbed to the Everest Base Camp, reaching its highest point and proudly raising the GPSCHEMOIL flag at the top.

Consistent KPI Excellence at Port of Fujairah - FOTT.

Operations team has maintained an average operational time within the target KPI benchmarks of PoF-Fott for six (6) consecutive months (July to Dec 2024) for both categories – vessel above 20k dwt and vessels up to 20k dwt.

The Team consistently operated within the target, demonstrating the team's ability to streamline processes and minimize delays. These consistent KPI achievements across multiple months reflect the team's ability to meet the demands of high-volume operations while maintaining a focus on efficiency and customer satisfaction.

Operations team are making all great efforts to achieve and focussing on the main drivers for optimizing operational efficiency in order to achieved overall compliance to PLDA for both vessel and parcels.

This sustained achievement is a testament to the dedication and operational efficiency of the GPS CHEMOIL team. GPS Chemoil Management sincere appreciation and gratitude to the entire Team for their exceptional performance.

Performance Highlights

The Total cumulative volume of product handled in 2024 across GPSCO infrastructure was about 11.1Mill and about 11% lower than 2023 data at 12.5Mill.

GPSCHEMOil New Tag Line

Successful ReplacementThe GPSCHEMOil Logo on the tanks was repainted with a new Tag Line “waves of energy”

GPSCHEMOil Logo

GPSCHEMOil Logo repainted by Aries Marine Team
The Aries Marine team successfully repainted the GPSCHEMOil logo at Terminals 1 & 2, with no incidents or first aid cases. The operation was executed precisely, following all safety protocols, and demonstrating effective planning, professionalism, and efficiency. This accomplishment sets a positive example for future projects.

Successful Completion of T-108 & T-109 Tank Cleanings
The “Master Marine Services” and “Sea Waves” teams successfully cleaned tanks T-108 and T-109, ensuring a thorough and safe process without incidents, spillages, or first aid cases. This accomplishment reflects a strong commitment to safety, efficiency, careful planning, and effective teamwork, setting a high standard for future operations.

A large white oil storage tank is the central focus of the image. The tank features a prominent logo consisting of a stylized blue and red wave graphic above the text 'GPSCHEMOIL'. Below this, the tagline 'waves of energy' is written in a blue, italicized script. The tank has several metal walkways and railings around its circumference. In the foreground, a circular metal platform with railings is visible, likely part of the tank's access system. The background shows a clear blue sky and other industrial structures, suggesting a port or refinery setting.

Third -Party Training To Enhance Employee Awareness and Foster Positive Work Culture

To promote awareness and strengthen work culture, the organization recently arranged 5 sessions of third-party trainings for employees. These sessions provided valuable knowledge and skills aligned with organizational goals, offering fresh perspectives, fostering personal development, and encouraging continuous learning. This initiative supports the organization's commitment to enhancing engagement, productivity, and a collaborative environment to achieve its objectives.

Staff news

Heartfelt Congratulations

We are delighted to celebrate the joyous occasion of our colleague, Mr. Mohammed Rizwan, May this new chapter of your life be filled with love, happiness, and endless cherished moments.

Celebrating a New Addition to the GPS Chemoil Family
