The End

Promising GM of GPS CHEMOIL LLC FZC – Mr. Mishra

Following Mr. Captain Tarun's departure,
we are truly grateful to have you step into the role of General Manager.

Your vision, ambition, and dedication—echoing
the *waves of energy*—have already begun shaping our team's path forward,
fostering not only company growth but also individual development for each of us.

With your leadership, we are more motivated than ever and look forward to a
promising future together.

Thank you for your continued support and guidance.as a

Inter Company 5's Football Tournament

GPS Chemoil recently hosted its much-anticipated inter-company football tournament. The tournament saw an exciting display of sportsmanship, strategy, and passion as each team competed fiercely, every match kept the audience on the edge of their seats. The final match was especially intense, with both teams putting up a tremendous fight until the very last minute.

A special thank you goes out to the organizing committee and support staff who worked tirelessly to make this tournament a success. Their efforts behind the scenes—from setting up the venue to coordinating schedules and ensuring fair play.

Looking Ahead

Following this successful tournament, GPS Chemoil looks forward to hosting more events that encourage collaboration and friendship among employees. Congratulations once again to all participants, winners, and organizers!

A Greener Workplace

Indoor Plants do more than enhance aesthetics; they purify the air by absorbing pollutants like carbon dioxide and Formaldehyde , creating a healthier environment. Studies show that office greenery improves productivity, reduces absenteeism, and boosts morale.

Plants also making the workspace more comfortable and conducive to better performance .this contributes to a calm, stress- reducing atmosphere.

incorporating indoor plants is an easy way to support sustainability.we've taken this step as part of our commitment to a greener future.ces.
